

2017 AFLAS Awards

Another top-line performance from one of the world's top lines.

From Hamburg Süd, you'd expect nothing less.

With nearly 150 years of shipping experience and our long-established, multi-trade services in Asia, Hamburg Süd is proud to have received nominations in no less than three categories in the *2017 Asian Freight, Logistics and Supply Chain Awards*. We believe the quality of our worldwide and regional services, systems and equipment deserve this recognition – and more.

Our commitment to Asia; the quality of our all-round cargo care and our reefer transportation leadership; our international market outreach; the reliability of our schedules and supply chain management services, and our unrivalled commitment to and

investment in effective environmental protection measures make us worthy contenders for these honours.

You be the judge!

Make a statement about the industry, and vote for quality.
