

South America East Coast to Europe / West Mediterranean

Dear Customers,

Hamburg Süd is pleased to announce the modification of the SAEC and MESA services covering the trade from South America East Coast to North Europe and the Mediterranean and vice versa as from October 1, 2017.

On SAEC, we offer 2 slings per week, one of them exclusively operated by Hamburg Süd with eight modern 10,500 TEU vessels. Our partners Maersk and CMA operate the vessels of the MESA service.

Both services will provide the most reliable network with the fastest transit times in the market. The new configuration offers extensive coverage of the South America East Coast and a tailor-made connection at Tangier northbound into the East Mediterranean and Middle East/Indian subcontinent. The SAEC service will call at the Brazilian port of Pecém in order to attend the fruit season.

South America East Coast to Europe/West Mediterranean

SAEC | MESA

Product highlights for the new service setup

- Direct link from all main North European ports including extensive coverage of the Nordic and Baltic ports to the South America East Coast
- Best-in-class direct outbound products to South America East Coast with very competitive transit times from the West Mediterranean
- Tailor-made connection in Tangiers and Algeciras northbound with an extensive coverage of East Mediterranean and Middle East destinations via our hubs in Tangier (Morocco) and Algeciras (Spain)
- Unique ECSA port coverage with direct Pecem call
- State-of-the-art container vessels specialized in reefer transportation
